PROFILE SUMMARY

ReactJS Developer | Frontend Engineer

Frontend engineer with 2+ years of experience in React and modern web development. Passionate about clean UI, performance, and developer tooling. Active Linux user and open-source contributor, always learning something new over chai.

EXPERIENCE

Udyata Information Systems Pvt. Ltd, Thrissur

June 2023 - Present

Frontend Developer (ReactJS)

- Developed 20+ reusable, scalable components in ReactJS, improving development efficiency by 30%.
- Collaborated with cross-functional teams to ensure pixel-perfect UI and smooth UX across platforms.
- Improved initial load time by 45% through lazy loading, memoization, and optimized rendering strategies.
- Handled complex application state using Zustand and Redux in large-scale B2B and healthcare platforms.

GrapesGenix Technical Solutions Pvt. Ltd, Thrissur

Jan 2022 – Jun 2022

Software Development Intern (Django)

- Gained hands-on experience with Django and Bootstrap by contributing to real-world projects.
- Worked closely with mentors to refactor and debug existing features, improving code maintainability.
- Learned full-stack development practices and agile workflows in a fast-paced startup environment.
