Rule of Evaluation

Knowledge of a student is assessed with a 100-point grading system. 100 points represents a maximum grade. The prerequisite for acquiring ECTS credit is to accumulate at least 51 points out of 100.

The knowledge assessment system includes:

a) Five types of positive assessment:

- a.a) (A) Excellent - 91-100 points;
- a.b) (B) Very good - 81-90 points;
- a.c) (C) Good - 71-80 points;
- a.d) (D) Satisfactory - 61-70 points;
- a.e) (E) Sufficient - 51-60 points.

b) Two types of negative assessment:

- b.a) (FX) Did not pass - 41-50 points, which means that a student needs to work harder to pass and is granted with the right to take one additional exam in terms of independent work;
- b.b) (F) Fail- 40 points and less, which means the performance of a student is not sufficient and the learner has to study the subject/learning course again.

The student will be admitted to the additional examination if he/she has exceeded the minimum threshold of the final positive assessment (51 points) but has not exceeded the minimum threshold of the final exam.

The student will be admitted to the final exam if he / she exceeds the minimum threshold of the intermediate assessment.

The interval between the final and the additional exam must not be less than 5 days after the announcement of the final exam results.

Credit can be granted if:

- a) The student's results exceeded the minimum threshold of the final exam;
- b) The student got at least 51 points out of a maximum 100 points in the final evaluation.

Minimum threshold of the intermediate assessment is ---- points, for the final exam ----- points

Evaluation component/method	Quantity	Maximum rating	Deadlines
Totally intermediate			

Evaluation criteria

Appeal of the assessment

In order to appeal the results of the midterm / final exam and additional exams, the student has the right to appeal the assessment received within 2 working days after the assessment. To do this, the student must apply in writing to the Dean of the Faculty. Detailed information is given in the Policy of Learning Process.

Plagiarism: Using somebody's ideas and opinion without proper citation and referencing is not tolerated. If there are any precedents of plagiarism, a lecturer is required not to assess and evaluate a student's work. Written assignments, which require citation and referencing are checked through plagiarism detection software. Written assignments with any occurrence of plagiarism will not be assessed and a lecturer should provide feedback to a student clarifying the reason. A student is eligible to appeal the decision about nullifying an assignment regarding above mentioned appeal procedures
