

CARPET CATALOGUE

Nepalese Handicrafts was established with an unpretentious but meaningful idea to maintain the centuries-old ancient art of hand-knotted carpets of Nepal and simultaneously provide a livelihood to the people of the remote and poorer settlements of the country. What was just a modest beginning has now spawned a well-established carpet industry with production centers of several settlements in Nepal. Every rug we make has stories to tell.

Tales of skilled hands and culture; myths, ancient art and traditional weaving passed down through generations. A testament to dignity and craft. Every rug shows our heritage of living well through design and beauty.

Any Nepalese Handicrafts strength is its focus on social change. Employing over 80% women, it is a powerful indication of the empowerment of women in Nepal. Through training and creating sustainable, well paid employment, it has empowered many poor individuals with independence and a good quality of life.

When talking about achieving goals and striding forward, Nepalese Handicrafts has been working with Shuvam Carpet Industries, which was founded in 2011 AD. Like the case of Nepalese Handicrafts, the aims of the company is to empower and improve the livelihood of women and support families below poverty through designing carpet weaving industry. United by vision and values, Nepalese Handicrafts and Shuvam Carpet Industries are much more than just carpet manufacturers.

They are narrators of culture, partners of empowerment and long-term social change in Nepal.

THE DESCRIPTIONS PROVIDED ALONG WITH THE CARPETS ARE ONLY FOR THE REFERENCE,
MOSTLY WE WORK ON CUSTOMIZED DESIGNS, SHAPES, COLORS, SIZE AND RAW MATERIALS.

1. Carpet Name

2. Material

100% Tibetan Wool
